

# Virtual Open House

June 9-23

The City of Shawnee is beginning a two-year process of updating its Zoning Code, Sign Code, and Subdivision Regulations to create a Unified Development Code (UDC). This new UDC will address land use and development activity within city limits including the zoning, subdivisions, signs, and design standards (like parking, street design, and landscaping).

The project will advance the vision and recommendations established in the Shawnee Next Horizons comprehensive plan. The update will also streamline and simplify development procedures to ensure clear and efficient processes.

Visit <https://freese.mysocialpinpoint.com/shawneeuDC> or scan the QR code to learn more and click **Get Involved** to share your ideas at the virtual open house!
