You may use this supplementary page to draw up a site plan to show where each structure is going to be located on the property. The site plan should contain information regarding the dwelling unit, surrounding dwelling units (if applicable), the chicken coop and chicken run, barriers/fencing, setbacks and property lines, and information on area (square feet). Please make note of the following regulations:

- Fowl must be kept in a building which at its nearest point is no closer than 25 feet to any dwelling unit other than that of the applicant;
- There must be erected a barrier to ensure compliance with the above distance requirement;
- The chicken coop and chicken run must be located in the rear yard of the property;
- The chicken coop and chicken run shall be attached and shall be located no closer than 5 feet from any side or rear property lines and no closer than 25 feet from any dwelling unit other than that of the applicant;
- The chicken coop shall be at minimum 4 square feet per animal, and the chicken run 8 square feet per animal;
